STATISTICS

DOLORES COLBURG, SUPERINTENDENT OF PUBLIC INSTRUCTION

Q415.111
MSC 26/38

The information in this publication has been compiled to indicate some of the trends since 1961 concerning certain school characteristics in Montana.

Whenever possible, data have been presented for the 12-year period beginning with the 1961-1962 school year. When a 12-year chronology could not be developed from available data, however, a shorter chronology appears.

March 1974

A handwritten signature in dark ink, reading "Dolores Colburg". The script is cursive and fluid, with the first name and last name clearly distinguishable.

*The difference between the general fund budget amount and the anticipated revenue for that budget, in 1968-69 through 1972-73, (from the sources shown) is the amount contributed to Foundation Programs by non-isolated school districts. In addition, for the year 1971-72, most of the difference shown is due to errors in budget calculations made by school districts. The anticipated revenue figure, which was calculated in the Office of the Superintendent of Public Instruction, is all that can be expected to be received by the school districts; the difference between budgeted amount and anticipated revenue must be made up out of revenues for the 1972-73 school year.

¹Anticipated revenue is the amount which state officials (Board of Equalization, Land Board and Office of the Superintendent of Public Instruction) estimated at budget time would be available for support of public schools during the ensuing school year.

²Levies were set to raise the amounts shown. The amounts of revenue actually collected by the counties vary somewhat from the expected figures. Although no data are available on exactly how much of actual collections of county taxes was applied to foundation program support, the anticipated amounts shown can be considered to be reliable approximations.

³Included some district revenue as provided by the law in 1961-62 and 1962-63.

⁴Equal level was not achieved because the amount of earmarked revenue was lower than expected; the actual level was 89%.
